Education

2012-2016 Bachelor of Technology, Computer Science & Engineering

Jaypee Institute of Information Technology, Sector-62, Noida

CGPA: 9.0

Work Experience

Oct 2017-Present Software Engineer at BrowserStack

Building, scaling, automation and management of BrowserStack's desktop platform.

Jun 2016-Oct 2017 Software Developer at Kuliza Technologies

As a developer, responsible for the creation of server-side web services (REST APIs) and integration with the front end. During this period worked briefly on FinAskUs(a smart investing related fin-tech project). Now working on HDFC Life project as a full stack developer where my work involved:

- Creation of a CMS from scratch, this was mainly done in Django and AngularJS
- Creation of investment/insurance journey flows and then writing the test cases for same. This was mainly done in BPM using AngularJS
- Code reviewing and mentoring new people joining the project

Feb-June 2016 Software Developer Intern at Kuliza Technologies

I was part of Backend team at Kuliza, worked on Edmodo project. Edmodo is a US based ed-tech company. My work mainly involved around these technologies: Django, Django Rest Framework.

April-Dec 2015 Student Developer at Drupal as part of Google Summer of Code

As a student developer, I had to port print module to Drupal 8. The project involved making use of API's available (mainly Plugin and entity) in Drupal 8 to make architecture more stable and pre-processing of node's content more robust. For work done visit: <https://www.drupal.org/project/printable>

May 2015-Present Member of Drupal project management community

I am currently a maintainer for two of the Drupal modules: printable and pdf_api. As a maintainer, I am responsible for keeping an eye over the issue queue and trying to solve those issues. Also, I am responsible for maintaining the quality of the project by adding new features to it.

Nov 2015-Feb 2016 Mentor at Drupal as part of Google Code-In

As a mentor, my job was to make tasks for the pre-university students and evaluate the tasks completed by them during the

program. During the program period, I also helped them by clearing their doubts and solving bugs.

Jun-July 2015 Developer Intern at Marg Software Solutions

Worked on various modules of the project where coding was done in PHP using object oriented approaches. Tested various functions defined in the module by using PHP unit test module.

Feb-May 2015 Intern at Computer Sciences Corporation

Worked in a team of three to develop a survey tool which created surveys dynamically and then made it available on the mobile app. I mainly worked on browser part.

Jun-Aug 2014 Marg Software Solution Intern

Contributed to the website (upmededu.gov.in) dealing with health department of Uttar Pradesh Government. Worked extensively on scraping and crawlers (mainly done using PHP and CasperJs).
